**DETAILED ACTION**

**EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Antony P. Ng on October 29, 2004.

The application has been amended as follows:

***In The Claims***

Claim 2, in line 4, delete "said".

***Allowable Subject Matter***

2. Claims 1-5 and 7-13 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art does not teach or fairly suggest a scheduled queue control block (SQCB) associated with scheduled queue to which chain of buffer control blocks is transferred in response to a determination that lock bit of a cell stored within the data buffer ms set to 0, wherein a corresponding buffer control block is chained to the chain of buffer control blocks in the SQCB without having been previously queued in the RQCB; and an aging mechanism that is periodically activated for discarding cells that are currently enqueued in a queue associated with RQCB in response to no cell having been enqueued in RQCB during a predetermined period of time, as specified in independent claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
